Dear Mr. Rosen:

We are currently working on a National Register of Historic Places nomination form for a unique folklore structure known as "Chateau Laroche." Enclosed is a draft copy of the nomination form.

Were you aware of this structure? Are you aware of other similar structures which have been listed on the National Register? I am especially interested if you have references to publications or articles which might help me put this structure in a larger historical context.

Thanks for any help you can provide.

Sincerely,

David A. Simmons
