Dear Dr. Anders:

Thank you for your letter of October 29. I am pleased to hear of your desire to restore the Galloway park. I wish more people were aware of the importance of preservation and conservation of environmental folk art.

Unfortunately, the Kohler Foundation, Inc., which funded the restoration of Fred Smith's Concrete Park, will not be able to help you fund the project. Their charter does not allow funding of any projects outside the state of Wisconsin. I will, however, send a copy of your letter to Linda Karger Kohler, Executive Director of the Foundation; she may be able to suggest other sources of funding.

Another person who may be able to suggest possible funding sources is Seymour Rosen, Director, SPACES, 1804 North Van Ess, Los Angeles, California 90028.

I would appreciate being kept informed of the progress you make in the Galloway restoration.

Cordially,

JOHN MICHAEL KOHLER ARTS CENTER
