Marion Blake

Phoenix, CA

Dear Marion

It was a pleasure to talk to you last night. I admire your tenacity in trying to protect the 'lifer' work of Grover Cleveland Thompson.

I've only seen a few photographs of the site but was quite excited by ~~what~~ them. SPACES hopes we can be of some help but will need some specific information on the site (see attachment)

In addition we could use some professional photographs of the site. The photographs will allow us to get a sense of place so we can talk about them with some authority, shy of a personal visit - which is not practical at this time. Our use of the photos will be limited to archival, ~~and~~ scholarly needs. Any other uses will be with your express permission ~~and~~ lectures & reports. If you are comfortable with this, please contact Mel Tzerle and find a time convenient for you both.

As I said on the phone, please send me a list of all persons who A. Have shown an interest in helping you protect the site B. Those persons who could be of some assistance (eg. City Arts or Historic Boards, people with specific skills, like architects, your councilman, State Representative Mayor, etc.) who would "benefit" from letters from SPACES and others. Also important are copies of any printed material, newspaper → We can't promise anything, but we will give it our best. Keep in touch.

articles, excerpts from books or anything I may quote from
in our letters. Of course we always need material for
our archives.
