Dear Seymour,

In about a week school will start again. I feel rather deflated since all of the letters and phone calls of the Summer don't seem to have made very much of a difference. It seems as though all of my leads have dried up. No one has responded to that statement I sent out. I suppose they felt that I had responded adequately; but silence is pretty hard to read.

I hope that by now you have received the video I promised you months ago. Don Fike moved to San Francisco. Didn't he do a great job on that video?

I sent a letter to the Acting Chief Historic Preservation Div..  
I'd love to develop a friendly relationship with her. Even if she can tell me only three things I didn't know before, she will have been a *great* help. (Arizona State)

I'm not sure if I mentioned to you that I've established regular hours for the garden. They are from 1:00 to 5:00 P.M. on the first Sunday of each month. Isn't that simple?

I visited a man who's going to help me with the brochure. He has an incredible computer set up in his home. I think it can do anything! In the back of my mind, all I can think about is learning how to work with one of those computers. Do you have one?

I'll have to take a class this year so I can get started.

I suppose I must be patient. I've planted alot of seeds this Summer and now I have to give them time to sprout.

Let me know what you think.

Seymour, I would like to buy three more of your book, In Celebration of Ourselves. One gal saw my 'portfolio' of the sites you compared the garden to in your Dec '91 letter, and if I had a extra copy, she would have bought it. So, I need a few! I'm sending you a check, fill out the right amount plus postage. Thanks.
