Dear Mayor Johnson,

I have reached a point where I am no longer sure of what I should do. I thought it might be best to turn to you for guidance. Enclosed, you will find a letter I wrote to Deborah Abele two weeks ago. I have not received a response from her. It is my impression that the Office of Historic Preservation was established for the purpose of facilitating the preservation of historic landmarks .

I have also enclosed several letters from the most respected authorities in this locality to show you that I am not alone in my opinion and concern that the Sunnyslope Rock Garden receive some level of recognition and protection from the City of Phoenix. I appreciate your assistance in this.

Sincerely,

Marion Blake
