Dear Seymour:

Thank you so much for taking the time with me last week to look over my Christmas houses project. You had some enlightening thoughts and your lead to Robert George was great! I finally reached him (information had given me the wrong phone number the first time--I'm sure glad I persisted and called information another time and got the right number) and he sounded great enough to make another trip back there in December. He is not allowed to put the decorations up until Thanksgiving.

It is wonderful to know that there are people like you out there in the world. I hope that someday I can return the favor to you--please let me know if I can do anything to help your cause out this way. I do travel quite a bit, so if you ever need anything documented, let me know.

With best regards,

Christina Patoski

PS. I'm hoping to meet with the Mid-American Arts Alliance next week when I'm in Kansas City on other business.
