Dear John,

Thanks for your letter and introducing William Thompson, of the Arts America, Speakers Bureau to our good works.

I hope to get out of America for the first time (Tijuana doesn't count) this Spring and will probably concentrate on France. I will be writing Thomson in a week or so for guidelines on the program. As per your suggestion I'll send a packet of SPACES' stuff.

Do you think the Television section would be interested in America's monumental, contemporary folk/art environments? I know of a great consultant you could hire? There are now 7 sites which have been granted National Register Monument status. Nobody has ever done a movie on these monuments, besides a 14 minute piece on the Towers and a TV piece (hosted by Dr. Spock) on Coral Castle. I can send you some info.

I'm glad to hear that you are in good health and humor. By the way, it doesn't help my reputation to get a letter with John Vorhes/TV on the envelope. TV means many things in Hollywood.

Be well!!!
