Mr. Seymour Rosen
SPACES
1804 North Van Ness
Los Angeles, California 90028

Dear Mr. Rosen,

Enclosed is an article which appeared in yesterday's Chicago Tribune about Kea Tawana's ark in Newark. This structure and the plight of Kea Tawana may have already come to the attention of SPACES, but perhaps you haven't seen this particular article.

If you have any information on where letters can be written or phone calls can be made to help stall or halt the destruction of the ark please let me know. While the future of all such constructions is precarious, this matter seems particularly urgent. I look forward to hearing from you.

sincerely yours,

Hal Rammel
