Enclosed is a complementary copy of the catalog and essay that accompanied the Annie Hooper exhibition that opened on April 23 at NC State University. This exhibit might not have been possible without your help—certainly it would have been different, and more difficult for us to assemble all the components that went into it. This catalog is only a token of the appreciation and thanks due to you for all that you did.

Yours,

A handwritten signature in cursive script that reads "Roger Manley".
