Dear Seymour:

We're still waiting for the color slides, but I thought you might want to see these black & white shots of Joseph Furey and his apartment. I've also filled in a SPACES Field Survey Form, providing as much information as I have now. I'll be sending more (including an article for the newsletter when it comes to that, and if you want it) later. Of course SPACES will be the first "grassroots" organization to publish this material, as we discussed.

I think I told you that I spoke with an excellent arts attorney who, if he accepts (and he seems likely to) will essentially help us for free. So we're trying to find someone to "adopt" the site in a sense--be the non-profit organization the place is donated to, for tax purposes. We'll be meeting with the folks at City Lore in NYC next week, and are waiting to hear from KGAA. The arts attorney will also be responding in the next 2-3 weeks.

Hope you're well.

Best wishes,
