Dear Seymour:

I enclose some slides of Mr. Rice's cross garden in Prattville, AL. This is one of the more spectacular sites I've seen in the South. I was there in June of 1985, in 103 degree heat and all those signs about souls burning in Hell made it seem even hotter. I tried to fill in your survey form. Sorry I don't have more information. Mr. Rice was not at home when I visited the site. Margaret Lynn Ausfield at the Montgomery Museum of Fine Arts should know more.

Hope you are well.

Sincerely,

Liza Kirwin
