This acknowledges receipt of your application for a search of the Census records, and the remittance of \$1.00 to cover cost of this search. This card is sent you so you will know your application is in our hands but that action on it will be delayed for several weeks because it takes considerable time to handle the many thousands of requests for these searches received each week by the Bureau of the Census.

Please keep this card and in future correspondence always refer to the file number on the other side of it and give the name of the person about whom the information was requested.
