

April 13, 1976

Mr. Stan Dixon
Room 305
Courthouse
Eureka, California

Dear Mr. Dixon,

Since my last letter information about Romano Gabriel's garden and other folk environments has been given to Mr. Knox Mellon of Historical Preservation by interested people in the Governor's office. Dr. Mellon will attempt to look into the preservation of these kinds of monuments. If there are any changes with the garden please advise me so I may pass the information to Dr. Mellon.

The California Arts Council is having their June meeting in Eureka and a group from the Council is planning on visiting the garden at that time. Your name has been given to them as a person to contact for more information.

Are there any procedures to borrow a large piece from the Gabriel garden for an exhibit on California environments? Has there been any change in the garden? Please advise.

Also, is there going to be a Kinetic Sculpture Race in Ferndale this year? If so, I hope to see it.

Sincerely,

Seymour Rosen
