Dear Ms. Gilmore,

Please consider this a quick note.

We, of course, would like to be of help to you in the preservation of architectural sites in Iowa.

There is no specific formula to accomplish this.....but in this initial stage we can be useful by suggesting some questions to be asked, and material, people, and information that needs gathering.

Enclosed is a SPACES survey form, and some information about SPACES' philosophy, activities and membership. As a good administrator I would like to suggest that the Art Department and/or library become an institutional member to help us to help you on this most worthwhile project.

We would appreciate a minute description of the sites, their status and a copy of the filled out forms. Once you get running we can do a story in our newsletter to solicit other help, information and publicity for your project.

How did you hear about us?

Good luck!
