St EOM
Eddie Owens Martin
(1908-1986)

St EOM spent the last three decades of his life creating "Pasaquan," a four-acre environment of brilliantly painted and evocatively sculpted ritual art and architecture which he designed and built on his remote George homestead. PCI is proud to present the initial showing of SAF's travelling exhibition of these remarkable artworks, and to offer a lecture by Tom Patterson, Director of the Jargon Society and author of an illustrated biography of St EOM which will be unveiled at the exhibition's opening.
