

To Seymour 7/2/98

ART BEAL FOUNDATION
~~881 HILLCREST 335 CAMBRIDGE ST.~~
 CAMBRIA, CA 93428
 ELIZABETH APPEL, ~~PRESIDENT~~

This foundation, formed in 1984, works to restore and maintain the folk art environment created by Art Beal and called "Nitt Witt Ridge." In the summer of 1991 some major restoration work was accomplished. ~~The foundation was revitalized in the Spring of 1992, and may be considered "essentially a new organization," according to president Elizabeth Appel. A fundraiser was scheduled for August 8, 1992 to raise money for a new roof. An archive for Art Beal's papers and memorabilia is being developed. The senior class at California Polytechnic has been assigned to do an inventory and write a report on the structures at Nitt Witt Ridge. Donations and offers of help are much appreciated and should be sent to the Foundation address listed above (and not to the formerly publicized post office box).~~

invited

→ ~~The property is being considered~~ Current proposals for the property include a ~~native plant nursery~~ Community benefit uses are being explored and include a native plant nursery for local restoration projects, and a community park. ~~and~~
