Hi Seymour:

Just a note to tell you all is going well with the Giudici project: I ended up not taking the photo class but keeping the project — the class was too esoteric and the project too structured for such an environment. I've been to visit and photograph the site twice — Mary and Bill are both fine and send hugs and love to you. Their warm reception to me was a result of your introduction, so I send hugs, too! I am now in the process of trying to figure out what to print and drawing up the site plan — slowly progressing, but having fun. Will keep you posted on any new developments...

Hope all is well with you — here's my \$50.00 for SPACES memberships. I anxiously await my signed copy of your book —

Yours,  
Valerie Young
