

I've recently moved to Sonoma County and have opened a stained glass studio in Geyserville. I've graduated with honors from C.S.U.S.J. art department and worked in the glass media for five years; I've studied in Amsterdam and Venice and also completed an apprenticeship under a master glass craftsman, Mr. Colosimo. I would like to offer my service to you. I have three designers working with me and only use the best glass available in the world. If you have a need for a quality stained glass craftsman, I'm available and at your service.

*Sincerely,
Michael Henderson
