

MUSEUM OF
AMERICAN
FOLK·ART

May 8, 1987

Dear Seymour,

I spoke with Bob about Old Trapper and he seems intrigued. I gave him "Celebration" to take home and muse over. It would be terrific if the Museum could take even part to make an installation in the new building, whenever it happens.

Thanks for your input the other night. I also liked your idea about using Kea's Ark as a jumping off point for an exhibition of site which are no longer with us. We are exploring the idea of a photo exhibition for the Museum to do with SPACES. I'm assuming that you have good photography on some of the destroyed sites.

I've been keeping copies of most of the coverage of Kea's Ark. Let me know if you would like a set for SPACES files.

Will be in touch.

Best,

Didi
