Dear Susan,

Thanks for the letter - I'm glad you made contact with Fredericks  
- we are still trying to come up with a list of legal ways to pro-  
tect John and make the property available to the public.

Please ask Fredericks to call me if necessary to clarify anything  
-collect if he wishes.

I talked with Carol - she didn't see this gathering of information as  
documentation or history (John does not have to accept status as a  
California Landmark) or a way of enhancing the chance for the public  
to purchase the property, if John dies without a trust.

We intend to do what we can from here and will try to get to the people  
I mentioned at the meeting, to consider filling out the forms.

I hope we don't lose another old person - without a substantive record  
of their lifes' work.

As far as kind words go.....you deserve kind words.

My best,

Seymour
