In general, SPACES will only consider requests to use or reproduce images of objects in its collection for scholarly, educational, or non-commercial purposes, and does not give permission for commercial use such as creating merchandise, promoting products, etc. Each request is separately considered, and permission is granted on a case-by-case basis at the sole discretion of SPACES. License fees apply depending on the type and nature of the intended use.

Terms Governing Reproductions or Publication of Images from SPACES

1. Written permission must be obtained from the SPACES to reproduce or publish images ("the Image(s)") from or of SPACES's collections. SPACES will generally not permit reproduction for advertising or promotional purposes.
2. Objects appearing in the Images, even if such objects are owned by the SPACES, may be protected by copyright, publication rights, or related interests that are not owned by SPACES. Permission to reproduce images from SPACES's collections does not imply that SPACES is giving permission to exploit any third party rights. It is the Applicant's responsibility to ascertain whether any such rights exist, pay any royalties or fees claimed by any third party and obtain all other permission required to carry out Applicant's activities without infringing the proprietary rights of, breaching a duty to, or an agreement with, any third party.
3. Unless otherwise indicated, permission is granted only for one usage in the Publication in one edition and in one language. Additional language editions, subsequent editions and other derivative works based on the Publication must be separately licensed.
4. The permission and license granted herein is for reproduction and publication of the Image(s) in analog formats only. Applicant may only make digital copies as absolutely necessary in intermediate process steps to the creation of a book or periodical published exclusively in analog format. SPACES does not otherwise grant permission to reproduce or process any Image(s) in any digital format, and such permission must be separately obtained in writing.
5. Duplicates may not be made of the Images supplied by SPACES without SPACES's prior written approval. Any duplicates are the property of SPACES and will be immediately provided to SPACES by Applicant.

6. Each Image that is reproduced must be unaltered and must be included in its entirety, and nothing may be superimposed on the Image unless approved in writing by SPACES. The reproduction may not be cropped or otherwise trimmed to fit a format, bled off the page, guttered across facing pages, or printed on colored stock. Nor may any black and white Image be printed with colored ink. When a detail is used, the word "detail" must appear in the credit line.

7. Except as described below, full identification of the Image(s), the credit line and any copyright notice that is provided to you with the Image(s) must appear on the same page as the Image(s), or on the opposite page, or the reverse in the Publication.

8. No license or permission granted pursuant to this Application may be assigned by Applicant to any third party.

9. This Application and any attached and cross-referenced pages sets forth the entire agreement of SPACES and Applicant regarding the Image(s) identified in this Application, and supersedes all prior promises, representations, or statements of any kind, whether written or oral. This Application may only be modified in writing signed by an authorized representative of SPACES and expressly stating its intention to modify this Application. This Application will be governed by the law of the State of California without regard to its conflicts of laws principles. All litigation arising under or relating to this Application will be filed and prosecuted in any court of competent subject matter jurisdiction in the County of Santa Cruz, California. Applicant consents to the personal jurisdiction of such courts for such purpose.

10. The reproduction permission granted hereby is limited to a non-exclusive reproduction license solely on the terms set forth herein. SPACES retains all copyright ownership and all rights to exploit its copyrights where applicable. All rights not expressly granted herein are reserved to SPACES. If reproduction is to be made from materials depicting SPACES's property, but not supplied by SPACES, SPACES nonetheless reserves the right to approve these materials.

11. Applicant will obtain SPACES's prior written approval of final presentation of the Image(s) prior to general distribution or publication of the Publication if required by SPACES. Such approval will not be unreasonably withheld, and will be based upon the presentation of the image as regards color, cropping, identification, credit, placement with other images, etc.

12. Applicant will defend, indemnify, and hold SPACES harmless from all claims, causes and allegations (whether threatened or pending), costs, fees and expenses (including reasonable attorneys' fees), awards, judgments, damages, losses and liabilities arising from or relating to any breach of this Application by Applicant or the officers, directors, shareholders, employees, agents, representatives, contractors and subcontractors of Applicant, including, without limitation, any claim, cause, or allegation asserted by a third party against SPACES based entirely or in part on Applicant's exploitation of the Image(s) licensed hereunder.

13. Applicant will send two (2) gratis copies of the publication to the Director of SPACES.
