

Seymour,

Would you please send me a survey form. My original was destroyed in our copy machine. Thank-you.

The trip to Kansas & Oklahoma left me alarmed at the wide-spread destruction of these sites. .... and almost all the artists are dead. I had a wonderful visit with Ray O. Smith who built the "Smitholo", and saw the "Garden of Eden." ... also had a rewarding visit with Barbara Brackman. I went through thousands of slides and chose almost three hundred of the best which I have had duplicated and have on file now in Utah.

The slides which I have sent you are of dinosaur acres, and were taken from outside the property walls. I hope to return to Cheyenne this fall in order to meet Mr. Nobley and take pictures from the inside.

Hope you're having a good summer!

Sue
