January 17, 1985

Dear Mr. Rosen,

Thank you for the issue of SPACES. I've heard of your work from John Turner in San Francisco and support its importance, especially today when so many sites are threatened.

The Sermons in Paint catalogue can be ordered from me at the above address for \$6.50 including postage & handling, checks payable to University of Richmond.

In our exhibit of Finster's works, we included a hallway of photographs of his garden and chapel, and also used a videotape that showed scenes in the garden. His constructions are extensive and fascinating, and we wanted to emphasize this aspect. His garden continually changes as he sells items and constructs new ones.

Are you planning another publication & could you use an article & photos on Howard's Garden? I could get one together - Best regards,
Ann Oppenheimer
