

The Walker Rock Garden, at 5407 37th Ave. S.W., Seattle, Washington 98126, phone # (206) 935-3036, was created by Milton Walker between 1959 and 1980. The Garden is a series of towers, walls, miniature mountains, lakes, paths, fountains, a patio and fireplace—all built on a working man's wages with thousands of semi-precious stones, rocks, crystals, geodes, and chunks of glass from all over the world. Tours are available by appointment from Easter through Labor Day.
