**GOLD RUSH DINING ROOM**

The highlight of this Main Dining Room is the "Gold Tree". This unusual lighting device, which measures 28 feet across, was built in place by various Madonna Inn and Madonna Construction Company craftsmen. Each petal, blossom and stem was hand made from copper and then gold leafed.

Dining Room has seating capacity of 500 people. Marble balustrade, to the left out of view of this photo, is an import from Europe.

Enjoy delightful dining and dancing (Dance Bands each Friday and Saturday) in this unique, intimate atmosphere.
