September 22, 1976

Dear John,

I hope this letter finds you well.

I am still working on the exhibit I told you about months ago. The current dates for the show are now December 3, 1976 to January 30, 1977 at the San Francisco Museum of Modern Art. If you or Mary have a chance to get to San Francisco during the run of the show, please let me know.

In the meantime, I am sending you proof sheets of the pictures I took of your garden last May. I have also included enlargements of the photos of you and Mary.

Also, I would appreciate it if you would answer a couple of questions about yourself and the garden:

What does Capedro mean?

Is the garden lit at night?

What year did you ~~come~~ to California?

If it is more convenient, please answer the questions on this letter. We will send you an invitation to the show, "In Celebration of Ourselves", prior to the opening. Thank you.

Take care,

Seymour Rosen
Guest Curator
