On a different note, i've recently come across an environment in the UK, and put together a small website [<http://www.kevinduffv.info>] - it's very special and i'm hoping to document and publish further.

Please continue to remind me to vote! I really hope you are able to secure funds to keep the project going. I really enjoy the 'maximalist' approach!

If I can be of any help in the future please do not hesitate to get in touch.

Best Wishes,
Iain.
