Ms Lisa Margolin
800 3rd Street
Washington, D.C. 20002

Dear Ms. Margolin;

Thank you so much for the Press Packet on the Nek Chand Garden at the Capital Children's Museum.

We appauld you and Ann W. Lewin who had this most wonderful idea of having Mr. Chand build a garden in the United States.

SPACES, as you can see from the enclosed newsletter, is most interested in this type of phenomonon and we hope to do a story on your gararden in the next newsletter. Any more information (photos-site plans-clippings), you can supply us would be most helpful for the story and for SPACES archives.

Please, give the book and a newsletter to Mr. Chand in our appreciation.....and if possible ask Ms. Lewin if she would like to move to California...we need her imagination and energy!

I hope to visit the Museum, when I next come to Washington, D.C.

My best,

Seymour Rosen
Director
