## Press Release

### Rescue the Walker Rock Garden!

One man's dream: curved walls of river pebble laid in curious design; patterned floors of jasper and chrysoprase, benches surfaced with sliced chalcedony; an airy tower of arches, studded with bright glass and the crystalline cups of geode.

The Friends of Walker Rock Garden are committed to purchasing the Garden, and must raise a certain amount every year to meet the mortgage payment. For every donation of Five Dollars, which monies are applied to the Walker Rock Garden Capital Campaign fund, receive an officially embossed and sealed certificate designating the signer to be a Supporter of One Square Foot in the Walker Rock Garden. Suitable for framing!

There are many options on which to bestow your favor, from the Thunder Egg fountain to the High Cascades complete with lakes, miniature roads and tunnels. Secret mineral surprises lurk in odd corners. Queries and checks may be sent to:
