MILWAUKEE, WISCONSIN 53211

Dear Seymour -

Don asked me to send you a package of Painted Forest Information. At the moment I am having duplicates made of slides of the restoration. We have not yet taken the final photos of the interior, so sometime later in Sept. I'll send much more complete photo-documentation. I've enclosed an informational statement we'll hand out to small papers (so they don't get info screwed up!) but am doing much more detailed articles for magazines, concerning the iconography of the mural, significance of building in terms of "Performance in America," "Art in America", the history of fraternal orders etc. You'll have to wait for this too, as I am totally bogged down with voluminous details as the Public opening approaches. I am

putting together a little museum of
M.W.A. artifacts right now. The hall
looks beautiful.

Of course we'll expect to see you
on the 18th (!) ~~and~~ there will be a
Party after the opening, if that's any
enticement.

Congratulations on Bottle Village progress -

Best
