Dear Mr. Forbes

Your collecting seems to have no limits, so how would you like to add a Shell Grotto? I believe it is the only one in the Western Hemisphere with the only mosaic floor in history of sea shells.

With much skilled help I have been working on it for about twenty years and now want to find a more permanent home for it.

Made as theatre scenery it can be moved easily. The attached article by John Russell gives you some information, but you must see it to get the whole picture. I will be very happy to show it to you anytime. Just let me know.

Cordially,

Luther Greene
