Dear Seymour,

Ron seemed to think it would be easy to show that the Garden is a significant site in Arizona.

It doesn't seem so easy for me - do you have any suggestions?

I know the SPACES focus on Arizona would be an impressive document. Do you suppose it will be out by the end of April?

Should I request a later date on the calendar?

Members of the Council want to visit the Garden. Also, a group from A.S.U. - planning area will visit on Saturday.

Its a hopeful turn of events, no?
