Dear Seymour Rosen,

Susanne Demchak of the ORANGE SHOW has told me of your involvement with the preservation and documentation of folk art environments, and your organization, SPACES.

I would appreciate any information that you could send me about this organization and it's work. Do you have any special presentations, lectures, or films on folk art environments? Do you lecture on this phenomenon?

Folk art environments are something somewhat new to me, and I am eager to learn more.

Thank you,
