Dear Seymour,

I came back from a wonderful vacation in Mexico to find SPACES Newsletter on my desk and the enclosed issue of Spot. It is always one of my best days when the SPACES Newsletter arrives.

I am sure they have sent you an issue of ~~Spot~~ already, but just in case there was a breakdown in the U.S. mail, here is another. I think your article was wonderful. From an apprentice to a master, a sincere thank you to your service to our field.

I am also enclosing recent articles about what we have been up to and this confession: I had hoped to have by the end of the summer your SPACES survey of the folk art environments in our area. But, I won't. We had a wonderful intern working with us on the library. But you know how slow this kind of work can go. I want you to know that it is on our list of "must do's." All my very best wishes.
