Dear Susanne,

Thank you, and Christy Cox-Silbermagel so much for mentioning SPACES' preservation efforts for Leonard Knight's Salvation Mountain in your, once again, handsome newsletter.

Besides the letters the story generates - your, newsletter will be a wonderful attachment to the material we send out to show the concern of a very broad constituency for works of art like Salvation Mountain. Can we have a few more copies?

If possible can you send a few copies of the newsletter to Leonard Knight? He will be besides himself to see it.

Also, I put you on a list of people to get a copy of a video on Salvation Mountain done by Larry Yust, a filmmaker in Los Angeles. A few copies of the video have been sent out, although it is still being worked on. Can you send him a copy of the newsletter?

Larry Yust

Thanks again.

Keep up the good work.

My best to you and Marilyn.
