Dear Mr. Rosen,

As usual, I found a lot of great interest in the newest issue of SPACES. I hope you will be able to include further information about the sad events surrounding Kea's Ark in the next issue. Do you have an address at present where I can send a contribution to Kea Tawana?

It was interesting to read about Stanley Papio's Iron Works. It's the first I've heard of it since friends happened on it a few years ago. I've enclosed an article they wrote for the surrealist journal Arsenal on Stanley. You may want to add it to your files.

best regards,
