Richard Storkfelt was born February 14, 1900. The date of each building corresponds with his age at the time of construction. For example, the windmill was built in 1982; he was eighty-two years old when he built it. In 1997, when he was ninety-seven years old, Richard Storkfelt built the church. The *Wishing Well* was made before 1980, as was the base for the *Birdbath*.
