

THE OUTER BANKS OF NORTH CAROLINA  
Cape Hatteras Lighthouse — Tallest lighthouse  
in America. Approximately 208 feet high, it  
began service in 1870. One of the numerous  
freshwater ponds in the area is seen in the  
foreground.

DEAR Seymour,

Thanks for your cheerful  
note. But -- mosquitoes are  
no joke here! Not for this  
fair skinned folklorist! But  
the heat and mosquitoes are  
the only things wrong. The project  
is going well these first few  
days. I fear you are right  
about the photography. I'm  
doing what I can each day,  
but it doesn't look good for  
photographing the whole collection.
