

**THE BOTTLE VILLAGE**  
4595 Cochran St.  
Santa Susana, California

A most unusual collection of all sorts of bottles, size, shape, and color, some of which make up a retaining wall, walks, floors, trees, furniture, and houses. There is a doll house, a pencil house, a combined shrine for various religions, a rumpus room, cactus beds, and many others. Visitors from all parts of the world find their way to this interesting bottle village.
