Dear Seymour,

It was a pleasure speaking with you on the phone.

I am just sending a quick note to let you know I still have some more work to do for preserving Loy E. Bowlin a.k.a. "The Original Rhinestone Cowboy" property.

Deborah has been on vacation, this past week, and I need to contact her for some additional information which you suggested.

I am very enthusiastic and hopeful that I can save this space and set up a folk art museum as well. The information you gave me is very helpful. I shall send the information you need as soon as I gather everything, together, with letters of merit.

Thank you for you help and much needed encouragement.

Sincerely,

Sandi

I hesitated to send you these junk photo's but I shall send the excellent one's next letter.

The double exposures are just a hint of what it looks like in there. Sandi
