RE: EDWARD JAMES, LOS POSAS (#806 on 10/15/97)

I am sending several things about Edward James and Los Posas, including an obituary, information from Mexican travel books, the book Fantastic Architecture, as well as magazine articles from "Smithsonian" and "House and Garden." (The patron may want to look at the hardcopy of the magazines as the color photos are very nice.) I am also sending information from an internet site which mentions a journal article which LAPL does not own.

Found references to several books that LAPL does not own. The patron may request them via ILL. I believe they were published in England.

Where is he now? The extraordinary worlds of Edward James (Quartet Books, 1978, 128 p.) ✓

Lowe, John Edward James: poet, patron, eccentric: a surrealistic life (Collins, 1991, 262 p.) ✓

Purser, Philip Poeted: the final quest of Edward James (Quartet Books, 1991, 211 p.) ✓

Could not find any references to videos other than the one mentioned on the website at www.junglegossip.com.
