Laura McBride
Oak Creek Route
Box 400
Flagstaff, Arizona 86001

Dear Ms. McBride,

William Perreault, the Historian for the Arizona State Historic Preservation Office, recently gave us your name. Mr. Perreault thought our organization might be interested in the work you have done on your home.

SPACES is a national organization dedicated to the documentation and preservation of what we call "folk art environments". I have enclosed a definition for you, along with pictures of two environments. We have been in contact with persons from all across the country and have learned of close to 300 examples of this special kind of American art.

We would like to know more about you and your home. Would you be interested in corresponding with us, telling us a little something about yourself and maybe sending us some pictures of the house? We will keep any information you send us confidential, of course.

Hoping to hear from you soon, I am

Sincerely yours,

Susan Alderson Hoffmann
Assistant Director

Encl.
