

7-89

Seymour. Hi!!

I enjoyed meeting you and Art Beal so much! Thanks a million for all your advice & help! I'm doing a lecture for a conference here on no topic in October - meanwhile - they are doing an article in the Des Moines Register on my project - and am contacting the State Historical Society - we've already managed to save the world's smallest Grotto in Iowa City - when we got here to take photos for newspaper - He had begun dismantling it - we talked him out of it and set up an artist volunteer group to help do upkeep on it -

Could you possibly send me some printouts of your Data Base on grottoes in Iowa - and maybe one or two

good examples from other areas -
This would lend support to
the efforts if I can show Mem an
example of your computer cataloguing
of mem. ~~that~~

Thank so much - I'll
be in touch - and back next
summer I hope!

Sincerely,
Jane Gilman
