Dear Persons;

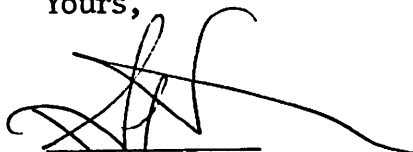

People at the California Office of Historic Preservation suggested we send you a copy of the enclosed letter to the Bureau of Land Management, about preservation of a cultural site in California.

SPACES is a just formed organization which will identify, document, archive and help to preserve - manifestations of what are now considered non-traditional arts.

SPACES has been helpful in getting 12 Folk Art Environments, such as Simon Rodia's Towers in Watts, nominated to the National Register.

We are preparing a fact sheet on our organization and will send it to you when it is prepared. We hope you can send us information about the Advisory Board.

Yours,

SEYMOUR ROSEN
President
