William L. Fox
Deputy Director
Nevada State Council on the Arts
329 Flint Street
Reno, Nevada 89501

Dear Mr. Fox,

We were delighted to learn that the Nevada State Council on the Arts has funded photographer Susan Orr's proposal to document folk art environments in your state. That effort will contribute not only to your state's efforts on behalf of the arts, but to the national concern for the documentation and preservation of these sites. A well-chosen subject for your state funding--congratulations to your agency for selecting this worthy project.

Has any progress been made in assisting Rolling Thunder with the completion of his "Thunder Mountain" environment? I'll be in contact with Thunder soon, and would like to be able to report to him on that possibility. Please let me know when you can.

Best wishes,

Seymour Rosen
Director
